PART ONE
UNDERSTANDING DIAGNOSTIC ASSESSMENTS

1. INTRODUCTION

The diagnostic resource bank aims to improve the relationship between assessment and classroom instruction. Assessment for learning is the process of gathering information about a learner's learning from a variety of sources, using a variety of approaches, or 'assessment tools', and interpreting that evidence to enable both the teacher and the learner to determine where the learner is in his or her learning; where the learner needs to go; and how best to get there. Teachers can adjust instructional strategies, resources, and environments effectively to help all learners achieve grade specific outcomes only if they have accurate and reliable information about what their learners know and are able to do at a given time.

When findings of assessment results are used to improve classroom practice, learner performance in general can improve. The diagnostic assessment tests/questions are designed to fulfil three purposes of assessment: namely to,

- reveal the misconceptions learners bring as prior knowledge to a class;
- measure the conceptual gains of a class as a whole; and
- identify concepts that are weak areas of understanding for the individual learner or as a class/grade.

A traditional multiple choice question (MCQ) provides little information about the learner's understanding of the concept/skill tested. The DBE has embarked on the design of diagnostic assessments using MCQs and assessment rubrics (for Languages) that are designed to assist teachers to diagnose learner misconceptions using the Pearson distractor rationale model as a basis for the classification of learner misconceptions. The diagnosis is also linked to the CAPS learning outcomes and skill acquisition.

MCQs designed for the diagnostic questions included in this package, include a breakdown of learners' understanding through the incorrect responses. All distractors are written not only to focus the attention of the teacher on those learners who are able to identify the correct response, but also to assist the teacher in identifying and understanding the misconceptions captured in the incorrect responses.

2. PURPOSE OF THE DIAGNOSTIC TEST ITEMS

This diagnostic resource should be used in conjunction with the requirements as stipulated in the CAPS document. It therefore does not replace the curriculum or the Annual Teaching Plan (ATP). The content therefore includes coverage from terms one to four. However, teachers may include questions from the resource bank into the ATP to facilitate assessment for learning.

These diagnostic assessments/questions are a phase based assessment. It also includes questions from four grades. There are questions set on the critical skills from the two earlier grades, the current grade and the next grade. The selection of questions from the four grades was done by looking at those concepts that were taught in the two earlier grades and were then extended in the next two grades as well. This would enable the teacher to identify at which specific grade the knowledge gap is.

The assessment guidelines per subject and grade have a detailed explanation of the topics/skills that are in this category. The spread of questions in the composite assessment is weighted to facilitate a phase based assessment and is broken down into the four composite grades as illustrated below:

Table 1: Percentage spread of questions

Spread of Questions			
Weighting	±10%	±20%	70%
Grade 9	7	8	9

The purpose of including the content of the other grades is to diagnose the skill/concept acquisition at the earlier grade, the current grade as well as to ascertain whether the learner is ready to make the transition to the next grade. Once the teacher has identified the gaps in the conceptual knowledge/ skill acquisition it would be easier to design targeted intervention programmes to bring learners on par for the transition to subsequent grades/topics.

These diagnostic questions should be used as a tool for teachers to assess the strengths and weaknesses of learners for the purpose of designing teaching and learning strategies that will address the individual needs of the learner.

This assessment should not be used for grading a learner; as the intended purpose is to facilitate learning.

3. THE STRUCTURE OF THE DIAGNOSTIC TEST ITEMS

The diagnostic resource is divided into sections or questions. Questions are framed to direct teachers to possible misconceptions which could be as a result of an earlier grade knowledge deficit, erroneous conceptual knowledge or lack of comprehension. Each paper has a spread of the content areas and skills that span the entire phase and is extended into the next phase. The texts/topics that have been selected for the Languages questions indicate the concept/skill progression from one grade to the next. The Mathematics questions are clustered according to content areas.

MCQs are constructed in such a way that each distractor provides information on whether the learner has mastered the skill/concept or whether there is a misconception. The distractors are graded according to four levels of understanding. Levels one, two and three enlighten the teacher about the nature of the misconception. Level four is the correct response, see Table 3 for further clarity.

Short questions are constructed to assess writing skills, mental computations, knowledge recall and application of rules or theorems.

Longer responses are constructed so that thought process, writing skills and consolidation and application of content areas and concepts across the subject are consolidated to arrive at the intended response.

4. PROPOSED USE OF THE DIAGNOSTIC LANGUAGE ITEMS/QUESTIONS

4.1. Parts of the resource bank may be used independently at different intervals e.g. as revision activities, informal assessment activities and baseline assessments.
4.2. Certain questions, per skill assessed, may be selected from a section to compile a shorter activity,
4.3. Questions may be selected according to levels of difficulty and can be used to support learning according to different cognitive demands or be used to support progressed learners.
4. 4. Diagnostic tests may also be used as a baseline assessment if administered prior to teaching a particular topic/skill/grade. A teacher may want to establish whether learners meet the basic skills and knowledge levels required to learn a specific topic or content aspect. This will assist the teacher to know the learners' level of proficiency in a particular topic prior to lesson preparation.

4. 5. The questions may be used at the beginning of a grade/phase to establish whether learners meet the conceptual knowledge for the new grade/phase.
4. 6. The teacher should decide when, where and how the assessment may be used to enhance teaching and learning.

5. DESIGN

Table 2 lists and describes the types of errors that correspond to each of the four levels of understanding encapsulated in the language diagnostic test. The distractor rationale as advocated by Pearson, 2004, forms the basis for diagnosing misconceptions. The cognitive levels, difficulty levels and taxonomies as stipulated in CAPS are incorporated into the levels of understanding to provide the teacher with holistic information about the level of performance.

A more detailed unpacking of the nature of the misconceptions is addressed in the marking guidelines of each diagnostic question.

Table 2: Levels of Performance for Language MCQs

Levels of Performance	Possible Learner Error
Level 1	• Makes errors that reflect focus on decoding and retrieving facts or details that are not necessarily related to the text or question. • Learner invokes prior knowledge related to the general topic being tested, but response is not text-based. • These errors indicate that the learner is grabbing bits and pieces of information related to the text as he or she understands them, but the pieces are unrelated to the information required by the question being asked.
Level 2	• Makes errors that reflect initial understanding of facts or details in the text, but is unable to relate them to the components in the question. • They apply their limited knowledge as an overgeneralisation and therefore come to a weak conclusion or inference. • The learner may focus on literal/superficial aspects of a text and makes superficial connections to arrive at weak responses.
Level 3	• Makes errors that reflect analysis and interpretation, but conclusions or inferences arrived at are secondary or weaker ones than required for correct response. • A distractor may be related to the correct response in meaning, but be too narrow or broad given the circumstances.
Level 4	• Correct response.

Each level of performance is captured in the distractors of all the multiple-choice questions. A question will include distractors that correspond to each level of understanding set out in the table above.

When learner responses are analysed, the diagnostic distractors will reveal patterns in their understanding of the content being tested. The teacher is thus guided towards instruction that specifically addresses a learner's understanding of a concept or specific content aspect.

6. MARKING GUIDELINES

6.1. MULTIPLE CHOICE QUESTIONS (MCQS)

Marks are allocated according to the levels of understanding of the question. However, the focus of these assessments is not on scoring the learner, but rather on what the learner is able to achieve/ not achieve. The marking guideline has columns indicating an answer per question, the grade level at which a question and its answer are pitched, the level of understanding, the level of performance and the mark allocation. The mark allocation is merely a guide for the learner response and should not be the focus of the task.

6.2. OPINION QUESTIONS

These questions require an opinion and a reason as a response. A scoring guide has been included to guide teachers in identifying scores of 0/1/2. The teacher is assisted in identifying and understanding the misconception and the level of skill development required to improve cognition and performance.

6.3. TRANSACTIONAL AND ESSAY WRITING DIAGNOSTIC RUBRIC

The diagnostic rubric is designed to span the grades as depicted in Table 1. The assessment criteria are Content, Language Construction and Format, Length and Planning. The competency descriptors has been developed according to grade levels and is useful in informing the teacher of how learners should be scored and awarded scores for each criterion and grade level separately. The teacher would be able to collect and report data that reveals a learner's level of competency per criterion. The teacher would for e.g. be able to say that learner X is able to write an essay with the appropriate grade level content but the language competency of this Grade 9 learner is still at Grade 7 level. The teacher would then be able to pay more attention to integrating language skills during the writing lessons.

The teacher is able to diagnose the strengths and weaknesses of the learners according to the assessment criteria set out in the rubrics. Teachers can then focus on those aspects of writing that are problematic.

6.4. LANGUAGE STRUCTURES AND CONVENTIONS

These questions require learners to apply grammar skills in context to demonstrate their level of knowledge and understanding of all language aspects assessed. This stems from the assumption that grammar is taught for constructing texts in their context of use where real language is required. As a result, the application of grammar is not restricted to the analysis of isolated sentences as it explains the way in which sentences are structured to construct whole texts that learners learn to read and write. The marking guidelines provide insight on how to mark the test using scoring guides. The learner performance levels would assist the teacher to identify learners' strengths and weaknesses and thus provide corrective measures and interventions for improved grammar usage.

Table 3: Levels of Performance for Language MCQs

1.1 What is the main idea of the article?

NO.		EXPECTED ANSWER	MARK	DIAGNOSTIC ANALYSIS	LEVEL OF UNDER-STANDING	LEVEL OF PERFOR-MANCE	GRAD
1.1	A	It is important to connect with many people on Facebook.		A superficial connection is made to the contents of paragraph 1, but it does not relate to the purpose of the text.		2	9
	B	Not all contacts on Facebook are friends that you know.	1	The correct response.	M	4	
	C	13-year olds like to boast about Facebook friends.		Related to the text, but not to the main purpose that is focused in the text as a whole.		3	
	D	The Internet is required to connect to Facebook.		The response is not text-based.		1	

Table 4: Levels of Understanding that incorporate the two Taxonomies

1. Level of Understanding	Bloom's Taxonomy	Descriptors (Incorporation of both taxonomies)	Barrett's Taxonomy	Types of Questions
Easy	Remembering and Understanding	Label, list, name, relate, recall, repeat, state, classify, re-group, rearrange, assemble, collect, categorise, select, recognise, supply, separate, isolate	Literal comprehension/ Reorganisation	MCQ, Closed response Short response Fill in the blank Choose correct response
Moderate	Application and Analysis	Predict, infer, guess, translate, summarise, interpret, understand, rewrite, apply, demonstrate, illustrate, investigate, diagnose	Inferential comprehension	Short response MCQ Matching Directed response Closed response Open response
Difficult	Evaluating and Creating	Analyse, appraise, evaluate, justify, reason, criticise, judge, comment, appreciate, create, derive, combine, construct, devise, synthesise	Evaluation and Appreciation	MCQ Essay writing Transactional writing

6.5 MODERATION

Internal moderation is important in assuring that the marking criteria/guideline is consistently applied, and that there is a shared understanding of the academic standards learners are expected to achieve. There should be processes in place for assuring comparability of marks for alternative assessments. Schools may therefore determine the format for moderation as a standardisation and quality-assurance measure.

7. DATA ANALYSIS AND UTILISATION

The teacher would be able to collect data on an individual learner, a class, a grade or for the entire grade and report at each level. Further data can be collected per topic/skill/content area. The teacher is also able to use the phase test and identify at which grade the knowledge deficit is. Since this is an exercise in assessment for learning targeted interventions can be designed to address strengths and weaknesses. Teachers would be able to give feedback to parents on learning gaps, deficits and strengths per learner.

7.1. THE PURPOSE OF DATA ANALYSIS

After administering a test the teacher can do own diagnostic analysis to identify:-

A) The overall level of performance of the class or school;

B) Individual learners or schools that need special intervention;

C) Groups of learners or schools who need special support and

D) Subject content areas that require priority attention in teaching and learning.

7.2. USE OF BASIC STATISTICS FOR ANALYSIS

Basic statistics that can be used to summarize the data from a test include the following:-

i. **Mean** (often called average) – calculated by adding the scores of all the learners and dividing the sum by the number of learners. The mean is one score that is used to summarize all the scores obtained by learners in a test. A high mean score represents high performance and a low mean score represents low performance. However, the mean score does not indicate how learner scores are spread from the highest to the lowest and thus is not adequate for identifying individuals who either over-perform or under-perform.

ii. **Median** (or middle score) – calculated by first arranging the scores from the highest to the lowest and then determining the score that divides the data into two equal halves. Half of the learners who wrote a test will have scores above the median score and the other half will have scores below the median score. If the number of learners is an odd number the median will be a real score that sits half-way between the extreme scores, e.g. 76, 57, 49, 45 and 39 have 49 as the median score. However, if the number of learners is an even number the median will be a score that may not belong to any of the learners calculated by adding the two adjacent scores that are half-way between the extremes and dividing their sum by two (2), e.g. the median of 76, 57, 49 and 45 is calculated by adding 57 and 49 and dividing the sum by two, i.e. (57 + 49)/2 = 106/2 = 52. As can be observed, 52 is not one of the four given scores but it is the median score that sits half-way between the extreme scores, viz. 76 and 45.

The median does not show what the extreme scores, i.e. the highest and the lowest scores, are.

iii. **Maximum** is the highest score obtained by a learner in a test.

iv. **Minimum** is the lowest score obtained by a learner in a test.

v. **Range** is the difference between the Maximum and the Minimum scores. The larger the range, the more diverse the ability levels of the test takers while a relatively small range indicates that the class of test takers has a relatively homogeneous ability profile.

7.3. AVAILABLE TOOLS FOR DATA ANALYSIS

Tools that are available for analysis of data include pre-programmed computer software such as the SA-SAMS in schools, the Microsoft Excel programme and even hand calculators. The Microsoft Excel programme, which comes with almost every computer software, is a reasonably easy-to-use tool for performing item-level diagnostic analysis of test data. An Excel spreadsheet is arranged in columns and rows.

7.4. PREPARING DATA FOR ANALYSIS ON EXCEL

Excel makes available useful formulae to calculate basic statistics. To prepare for analysis of data from an administered test, do the following:-

i. Mark the test and write the scores obtained by each learner next to the relevant question/item number in their books or scripts;

ii. Enter learner names and other particulars (e.g. the gender of each learner) in the rows, one after another;

iii. Enter test item numbers in the columns, one after another;

iv. Enter the score of each learner on each item in the correct cell (i.e. where the relevant column and row meet);

v. Check if all data has been entered correctly (i.e. do thorough data cleaning);

vi. Use correct formulae to calculate the statistics that you want to use to summarize and analyse the test data; and

vii. Interpret the statistics in terms of what they suggest about performance of individuals in your class, performance of identifiable groups of learners (e.g. boys and girls) and performance in specific content areas.

7.5. ANALYSIS AND INTERPRETATION

To summarise the data calculate the average percentage score, the median, maximum and minimum score percentages and you may do this separately for boys and girls. To make sense of the analysis it is recommended that different colour codes be used to mark specific observations (Excel provides a wide range of colour codes) and also represent findings with appropriate graphs to enhance visual impressions to aid decision-making on where to focus improvement interventions. For instance, the following observations can be made from the analysis that has been done:

a) Overall performance

Overall performance in this class, measured through the mean score, may be e.g. 54,4% which is relatively acceptable but still leaves room for improvement. The median score for the class may be 56% which means that half of the learners obtained scores above 56% and another half obtained scores below 56%.

b) Performance spread

Although the mean and median scores were both above 50%, learner scores may range between eight percent (8%) and 100% which is a fairly wide range that suggests diverse abilities in this class. This implies that intervention strategies will have to be diversified in order to meet the learning needs of different learners, i.e. a one-size-fits-all improvement strategy will not work in this class.

c) Individual learner differences in performance

Individual learners who were identified to be particularly at risk have been indicated with e.g. red colour coding. They obtained scores below 40% and thus fall within the “Not achieved” and “Elementary achievement” levels. They require special attention in terms of teaching strategies and learning opportunities.

d) Group differences in performance

Analysis was done at two group levels, viz. boys and girls. All the summary statistics indicate that the boys performed much lower than the girls. Their mean score was 49,3% against the 60% mean score obtained by girls. The median score for the boys was four percent (4%) lower than of the girls, viz. 52% as against 56%. Boys’ scores ranged between eight percent (8%) and 88% while the lowest score for the girls was 32% and the highest was 100%. It is evident that in this class boys require a different or more focused intervention than the girls.

e) Performance in specific topics or skills

The percentage scores per item indicate the items and, therefore, the topic or skill where interventions must focus. The analysis and diagnosis (from ‘a’ to ‘e’ above) identifies:-

i. Which learners need special attention?; and

ii. Which content areas require special focus?

The analysis also suggests what materials will be required to improve on the identified areas, what extra support the teacher will need (if necessary), whether additional time will be required, who else should be involved in the interventions and a host of other possibilities that the data analyser may see fit in their context.

7.6. DIAGNOSTIC OR ERROR ANALYSIS

Error analysis is the study of errors in learners' responses with a view to look for possible explanations for these errors. It provides specific information about the relative skill proficiency or misconception a learner has in his/her response, in order to understand what the learner can or cannot do. It is a multifaceted activity, for the teacher, because it involves analysis of the correct, partially correct and incorrect thought processes of the learners' individual responses and thinking about possible remediating interventions that might work well.

Understanding the errors a learner or a group of learners make will determine how learners are grouped in a certain subjects to enhance effective teaching.

NOTE TO THE TEACHER:

1. These “tests” are designed as a diagnostic assessment tool.

2. Please study the teacher guidelines before you administer these tests.

3. You may administer the tests according to questions.

4. You may further break down the sub-questions from different questions according to the skills/ difficulty levels/terms/grades.

5. The selection of the questions will depend on the purpose of the assessment. E.g. You may want to check whether the Grade 9 learners in your class are competent in the Grade 7 and 8 reading component. Hence you will select all the Grade 1 and 2 sub-questions from Question 1. This may form a baseline assessment which can be administered at the beginning of the year. You can then plan your lessons for your Grade 9 learners based on your diagnostic analysis of the baseline assessment. In a similar manner you can select questions according to the different CAPS components and the purpose of your assessment.

Please note that the tag above each question, as shown below, provides the following information in this order: type of text, subject component, content/concept or skill, grade level of the question, difficulty level and term (in which the content/skill is taught) e.g.:

Type of text	Components	Content/ Concept/Skills	Grade	Difficulty Level	Term
Narrative	Reading and Phonics	Characters in the story.	G1	E	2

It is thereafter written above each question in the format:

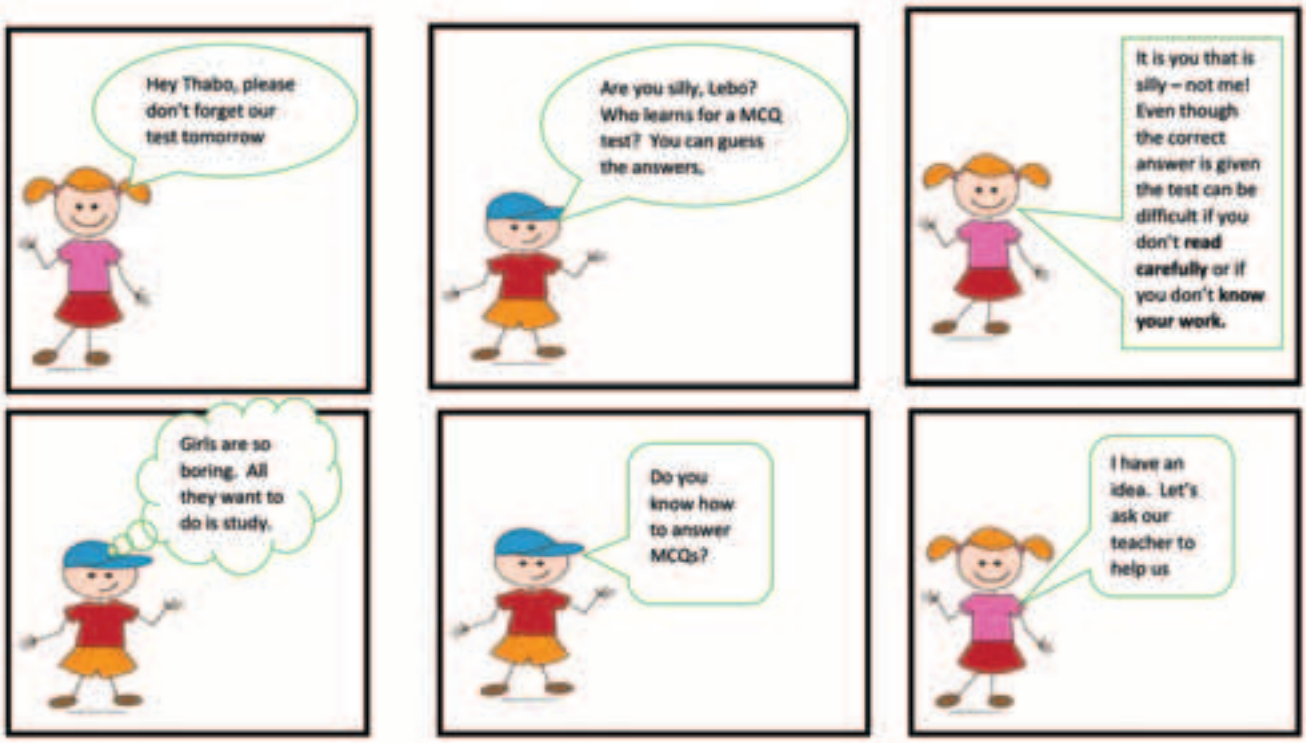

Narrative	Reading and Phonics	Characters in the story.	G1	E	2

PART TWO

ANSWERING MULTIPLE CHOICE QUESTIONS (MCQs)

HOW TO ANSWER MULTIPLE CHOICE QUESTIONS (MCQs)

NOTE TO THE TEACHER:

1. The Structure of a MCQ

Example:

What is the number symbol for six hundred and ninety-eight? **STEM**

A	**60 098**	
B	**6 098**	**DISTRACTORS**
C	**968**	
D	**698**	**KEY**

EXPLANATION

STEM	QUESTION
DISTRACTORS	INCORRECT OPTIONS
KEY	ANSWER

2. Strategies for answering MCQs

2.1. Read the question carefully. Understand the question and be sure of what is expected of you. Underline the key words in the question. You may need to read the question more than once.

2.2. Try to answer the question before you check out the options. You may be required to work out the answer before you are able to choose the correct option.

2.3. Read each option cautiously. Delete the options that you are sure is incorrect, until you are left with the correct option.

2.4. Make sure that the option you have chosen matches what the question requires.

2.5. Most often there will be an option that will be obviously wrong. Eliminate this option.

2.6. Two options may sound alike. However, one of the options may be partially correct; it may be a partial answer to the question. Reread the question to make sure that the option fully answers the question.

2.7. If you are unsure of which options are incorrect, leave the question and move to the questions you are sure of. However, make sure that you come back to the question. Don't leave blanks. **CHOOSE AN OPTION FOR EVERY QUESTION.**

2.8. There will be only **ONE** correct option.

NOTE TO THE TEACHER:

1. There is no pattern in which the answers are arranged.

2. Check your work. If you make a mistake, strike out the incorrect option and circle the correct answer.

3. Do not leave any question unanswered.

Notes:

PART THREE
PHASE BASED DIAGNOSTIC ITEMS

9. ASSESSMENT ITEMS

Question One
Read the following text carefully and answer the questions:

SA teen hurdles to gold at Youth Olympics

1. Olympic gold medallist, Gézelle Magerman, arrived home to a hero's welcome at Cape Town International Airport. School
   mates, sporting representatives and government officials all formed part of the welcoming committee.
2. The 17-year-old girl made history when she won the country's only gold medal at the prestigious Youth Olympic Games in Nanjing, China, with her victory in the women's 400 metres hurdles. The young athlete ran a personal best time of 57.91 seconds, setting a new South African youth record, despite a rather slow start to the race.
3. At the start of the race Gézelle felt she was not certain of success. She says: "At first I thought I am not going to make it because everybody started the race like in a boom. And by the 200m mark I realised I still had energy left, so I just made every effort to win."
4. The golden girl was too excited to sleep after winning South Africa's first medal and described her victory as the best moment of her life. Janine Filander, Gézelle's mother, happily recalls the message Gézelle sent her the night after the race. 'I can't sleep! I'm too scared I'll lose my medal,' the message read.
5. Janine said her husband, Jan, had taken the day off work on that Monday to watch the final with her and their children, Courteney and Corné. "We were screaming, crying and laughing when Gézelle won." The family received many phone calls after the race.
6. In an interview with the South African Sport Confederation and Olympic Committee (SASCOC), Gézelle said: "This was definitely one for the team. Coach Chris White just told me to go out and have fun, but I was very aware of the fact that this would be our first medal, which made it even more special."
7. Gézelle did not have a sponsor who could support her financially before the Youth Olympics. The family had to find ways to raise the money for her competitions and held a dance, braais and other events. She had won gold in the same event at the African Youth Games in Botswana earlier that year and her family realised that she was talented and they had to do everything to support her.
8. At a very early age, Gézelle, who also played provincial netball, had to take the difficult decision to give up netball and focus on athletics. Her choice paid off and she achieved her goal to represent South Africa at the Olympic Games.
9. With the gold medal in her pocket, Gézelle says her focus will now shift from the racetrack to the classroom as she needs to catch up on her school work because she would like to achieve an academic 'gold medal' as well.

[Adapted from: www.iol.co.za, Fredericks, I, August 27, 2014]

Newspaper Article	Reading and Viewing	Meaning of words	C	7	M	1

1.1. What does 'schoolmate' in paragraph 1 refer to?

A) School contact
B) School enemy
C) School friend
D) School date (1)

Newspaper Article	Reading and Viewing	Implied meaning	C	9	M	1,2,3

1.2. What is meant by 'Gezelle ran a personal best time'?

A) It was the fastest she had ever run.
B) It was the best moment of her life.
C) She had a slow start to the race.
D) She won the only gold medal. (1)

Newspaper Article	Reading and Viewing	Skimming and Scanning	K	7	E	2

1.3. In which city was the Youth Olympic Games held?

A) Johannesburg
B) Botswana
C) Nanjing
D) China (1)

Newspaper Article	Reading and Viewing	Skimming and Scanning	K	9	E	1

1.4. Who formed part of the committee that welcomed Gézelle at Cape Town International Airport?

A) School mates, sporting representatives and government officials
B) School mates and the Olympic Committee
C) The Youth Committee
D) Tourists (1)

Newspaper Article	Reading and Viewing	Infer meaning	C	9	M	1

1.5. Why was Gézelle not sure that she would win at the start of the race?

A) Everyone started the race very quickly.
B) She had no energy at the start.
C) She started the race too slow.
D) She was injured. (1)

Newspaper Article	Reading and Viewing	Applying figurative language in context	A	9	M	1,2,3,4

1.6. What is the figure of speech used in the phrase, 'like in a boom'?

A) Personification
B) Onomatopoeia
C) Metaphor
D) Simile (1)

Newspaper Article	Reading and Viewing	Intensive reading	C	9	M	1

1.7. When did Gézelle realise that she could possibly beat the other runners?

A) When she realised she had enough energy left.
B) When she started the race.
C) The night before the race.
D) After the race. (1)

Newspaper Article	Reading and Viewing	Intensive reading	C	9	M	1

1.8. What made winning this medal special for Gézelle?

A) She was the only athlete who did not win a medal for South Africa.
B) She was the only athlete who won a medal for South Africa.
C) She won South Africa's only gold medal.
D) She set a new world record. (1)

Newspaper Article	Reading and Viewing	Implied Meaning	C	10	M	3

1.9. Why is Gézelle referred to as a 'golden girl'?

A) She was given a gold watch.
B) She was covered in gold.
C) She won a gold medal.
D) She had a golden tan. (1)

Newspaper Article	Reading and Viewing	Implied Meaning	C	8	E	4

1.10. How are Courteney and Corné related to Gézelle?

A) They are her team mates.
B) They are her cousins.
C) They are her siblings.
D) They are her friends. (1)

Newspaper Article	Reading and Viewing	Intensive reading	C	7	M	4

1.11. Why did her father take the day off from work on that Monday?

A) To watch Gezelle's race on television.
B) To watch Gezelle on television.
C) To take Janine to the airport.
D) He fell ill at work. (1)

Newspaper Article	Reading and Viewing	Intensive reading	C	8	M	1

1.12. Why do you think the family received a lot of phone calls after the race?

A) People wanted to ask permission to go to the airport.
B) People wanted to know how the family was doing.
C) People wanted to find out more about Gézelle.
D) People wanted to congratulate the family. (1)

Newspaper Article	Reading and Viewing	Skimming and Scanning	K	9	E	1

1.13. Name the reactions shown by Gézelle's family when she won.

A) They were screaming, crying and celebrating.
B) They planned a party, bought cake and cried.
C) They were screaming, laughing and crying.
D) They shouted, cried and danced. (1)

Newspaper Article	Reading and Viewing	Draw conclusion and justify opinion	A	9	D	1

1.14. Do you think Gézelle's coach gave her good advice?
Provide a reason for your opinion. (2)

Newspaper Article	Reading and Viewing	Skimming and scanning	K	8	E	1

1.15. List the ways Gezelle's family raised money for her competitions.

A) They asked family members and the church to contribute money.
B) They asked SASCOC and the community to support Gézelle.
C) They held braais and dance competitions.
D) They held braais and a dance. (1)

Newspaper Article	Reading and Viewing	Intensive reading	K	10	E	3

1.16. What did Gézelle's family decide to do after the African Youth Games?
They decided

A) that Gézelle needed more support with her school work.
B) to support Gézelle after the Youth Olympic Games.
C) to ask Gézelle's school to support her financially.
D) to support Gézelle in her talent. (1)

Newspaper Article	Reading and Viewing	Meaning of words	C	9	E	3

1.17. Write down one word from paragraph 8 to show that Gézelle struggled with her decision to stop playing netball. (1)

Newspaper Article	Reading and Viewing	Inferencing (characterisation)	C	9	M	1

1.18. Gézelle can be described as . . . because she decided to focus on her studies after the Youth Olympics.

A) responsible
B) reasonable
C) academic
D) careless (1)

Newspaper Article	Reading and Viewing	Give own opinion	A	9	D	2

1.19. Why can Gézelle be described as a role model to SA teenagers?

A) She decided to catch up on her school work after the youth Olympics.
B) She decided to give up on netball at an early age.
C) She is hardworking and dedicated.
D) She always listens to her parents. (1)

Newspaper Article	Reading and Viewing	Give own opinion	A	9	D	2

1.20. What decision would you have taken regarding your school work if you had returned from a competition like Gézelle did?

A) She decided to catch up on her school work after the youth Olympics.
B) She decided to give up on netball at an early age.
C) She is hardworking and dedicated.
D) She always listens to her parents. (1)

Question two
Read the text and answer questions:

Text 2: Information text - Language structure and use Table Mountain

1. The famous Table Mountain, standing large and welcoming you to Cape Town, is the first thing that you see whether you arrive by plane, train, boat or car. It is one of the Seven Wonders of Nature and it forms part of the World Heritage Site because of its unique flora and fauna. The sandy flats at the mountain top gave rise to its name. Looking at it from below is one thing but it is quite another to be on top of the mountain, from where one has such wonderful views of Cape Town and the surrounding areas.
2. One can of course walk up Table Mountain, but getting to the top of Cape Town's mountain doesn't have to involve any more exercise than taking the 85-year-old Table Mountain cable car. The ride up the mountain provides one with a gentle, quick trip to the top.
3. Once on top, you can visit the restaurant which offers full meals. One could also pack a tasty picnic basket to enjoy at the top of the mountain. Remember that you will be in the Table Mountain National Park, so please make use of rubbish bins, or better still take all your garbage down with you.
4. Visitors to Table Mountain can enjoy wonderful views of the dassie running along the rocks, lizards sunning themselves, butterflies dancing past and you might even be lucky enough to see a porcupine digging for food. The bird life is wonderful too, from the large eagles to the small colourful sunbirds. All these creatures live in the fynbos. There are 100s of these plant species which are found nowhere else on the planet.

Adapted from Capetown.travel, July 2016 [Online]

Glossary

dassie - a small short-legged animal
porcupine – a small animal that has very stiff, sharp parts all over its body
fynbos – types of plants only found in the Western Cape

Information text	LS & C	Word level (nouns)	C	7	E	1

2.1. Why is “Cape Town” written with capital letters? Because it is a

A) common noun

D) rhyme. (1)

Information text	LS & C	Word level	C	7	E	1,4

2.5. What is the suffix in the word “welcoming”?

A) -ming
B) com-
C) wel-
D) -ing (1)

Information text	LS & C	Sentence level	C	9	M	1,3

2.6. Join the sentences below by using the conjunction in brackets.

The sandy flats are at the top of Table Mountain. The sandy flats gave rise to Table Mountain’s name. (and)

A) The sandy flats that are at the top of the Table Mountain and gave rise to Table Mountain’s name.
B) The sandy flats that are at the top of Table Mountain and the sandy flats gave rise to its name.
C) The sandy flats are at the top of Table Mountain and Table Mountain gave rise to its name.
D) The sandy flats are at the top of Table Mountain and gave rise to its name. (1)

Information text	LS & C	Word level	K	8	E	2,3,4

2.7. Give the opposite meaning of “below” in paragraph 1.

A) underneath
B) above
C) base
D) over (1)

Information text	LS & C	Sentence level	C	9	M	1,2

2.8. Write the following sentence in its negative form.
Make use of rubbish bins.
(1)

Information text	LS & C	Sentence level	C	9	M	1,2

2.9. Write the sentence in the past continuous tense. Lizards are sunning themselves.
Lizards

A) will be sunning themselves.
B) were sunning themselves.
C) was sunning themselves.
D) sunned themselves. (1)

Information text	LS & C	Word level (adjective)	C	9	M	1,2,3,4

2.10. Read the sentence below. Gézelle started her race slowly.
The underlined word is an example of

A) will be sunning themselves.
B) were sunning themselves.
C) was sunning themselves.
D) sunned themselves. (1)

Information text	LS & C	Word level (plurality)	K	8	E	4

2.11. What is the singular form of the underlined word?
The butterflies are very beautiful. (1)

Information text	LS & C	Sentence level	K	9	E	1,2,3

2.12. Choose the sentence which is grammatically correct.

A) Dassie were running along the rocks.
B) Dassies are running along the rocks.
C) Birds lives the wonderful life.
D) Porcupine dig to fresh food. (1)

Information text	LS & C	Sentence level	K	9	E	2,3

2.13. The underlined words are an example of

Large eagles enjoy Table Mountain where they lived for many years.

A) An adjectival clause
B) A subordinate clause
C) A main clause
D) A noun clause (1)

Information text	LS & C	Word Level (verb)	K	7	E	1,2

2.14. What is the verb in the following sentence?

The porcupine ate the food.

A) porcupine
B) food
C) the
D) ate (1)

Information text	LS & C	Word level (article)	K	7	E	3

2.15. Choose the correct answer from the words in brackets.

The bus takes (a / an) round trip. (1)

Information text	LS & C	Word level (superlatives)	K	8	E	3

2.16. Complete the sentence below by choosing from the answers provided.

Table Mountain is the natural wonder of all.

A) better
B) poor
C) good
D) best (1)

Information text	LS & C	Sentence level	K	9	M	1,2,4

2.17. Change the sentence below into indirect (reported) speech.

He says, “All creatures live in the fynbos.”

A) He says that all creatures are living in the fynbos.
B) He says that all creatures live in the fynbos.
C) He says all creatures lived in the fynbos.
D) He says all creatures were living in the fynbos. (1)

Information text	LS & C	Word level (preposition)	K	9	M	1,3

2.18. What is the preposition in the following sentence?

The ride up the mountain provides a gentle trip.

A) ride
B) up
C) the
D) trip (1)

Information text	LS & C	Sentence level (types of sentence)	K	10	M	2,3

2.19. Tourists must visit Table Mountain. The sentence is an example of

A) an exclamation.
B) a statement.
C) a command.
D) a question. (1)

Information text	LS & C	Sentence level (punctuation)	C	8	M	1

2.20. Correct the sentence below by adding the correct punctuation.

Tourists can enjoy the restaurants delicious meal. (1)

Question Three

Read the text and write a summary by giving five (5) reasons why we should be proud of being South Africans.

Newspaper Article	LS & C	Summary writing	A	9	D	2,3,4

- Use your own words as far as possible.
- Write only one fact per line.
- Each fact must be written in a grammatically correct sentence.
- Do not use more than 60 words.
- Indicate the number of words used at the end of the summary.

Proudly South African!

1. There are very few things that match the smell of meat sizzling on the braai stand and sipping on your favourite beverage while hanging out with family and friends. There are few things that are as South African as a braai. On that note, we've produced a food type that basically combines all of South Africa's most delicious flavours in one succulent sausage that is called boerewors.

2. The fact that you can travel a few hours beyond our cities and suburbs and enjoy wild animals, that others around the world would pay thousands to see, definitely earns us more than a few points. We have basically come up with our own 'language' that only fellow South Africans can enjoy, it's a beautifully unique way of uniting people from every different culture.

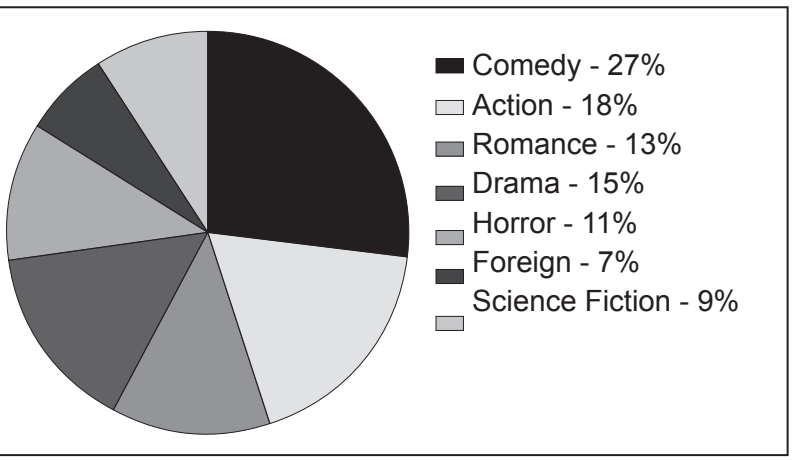

3. Table Mountain is a prominent landmark overlooking the city of Cape Town. This is one of the country's most photographed attractions. It's breath-taking to look at from below or from the top. This UNESCO World Heritage Site is definitely something to be proud of.

4. Trevor Noah was once a fairly unknown South African comedian who has just become the host of The Daily Show. This is one of the biggest shows in the United States of America and watched by millions of people all over the world. Our country bred a man who was not only responsible for changing the history of our own country, but of the world as well. Nelson Mandela is lovingly referred to as Tata, and seen as the most famous man ever to come out of South Africa. South Africans are really proud and happy to share proudly South African products with the world.

Question four

Study the information text and answer the questions:

[Sourced from www.statcan.gc.ca, April 2015]

Information text	Reading and viewing	Compare and Contrast	C	8	E	2

4.1. Which two types of movies are the most popular choice for teenagers?

A) Comedy and Foreign
B) Drama and Comedy
C) Comedy and Action
D) Drama and Action (1)

Information text	Reading and viewing	Meaning of word	C	7	E	3

4.2. What type of movie is a comedy? It is a movie that is

A) funny and involves romance.
B) meant to make people laugh.
C) telling a story through dance.
D) about a serious subject. (1)

Information text	Reading and viewing	Inferential meaning	C	9	M	2

4.3. What is the meaning of the word 'rated'?

A) The age restriction of a certain movie watched by teenagers.
B) The grading of different movie types according to choice.
C) A review of a movie watched by teenagers.
D) A type of movie watched by teenagers. (1)

Information text	Reading and viewing	Compare and contrast	C	9	M	2

4.4. What is the most unpopular movie type?

A) Science Fiction.
B) Foreign
C) Drama
D) Horror (1)

Information text	Reading and viewing	Inferential reasoning	C	9	M	3

4.5. Why do you think only 13% of teenagers watch movies with some romance involved?
Teenagers

A) are not interested in romantic movies.
B) like having romantic relationships.
C) like watching romantic movies.
D) are not easily impressed. (1)

Information text	Reading and viewing	Own opinion	A	10	M	3

4.6. Is the pie chart effective in letting people draw conclusions on the type of movies watched by teenagers? Give a reason for your answer. (2)

Information text	Reading and viewing	Infer meaning of words	C	7	M	3

4.7. Why is this called a pie chart?

A) It looks more like a pie than a graph.
B) It lists the different types of movies.
C) It is round and split into sections.
D) It is round and can be eaten. (1)

Information text	Reading and viewing	Own opinion	C	9	M	3

4.8. Do you think Science Fiction movies should be based on real life? Provide a reason for your answer. (1)

Information text	Reading and viewing	Implied meaning	C	9	M	2

4.9. What kind of information about 'popularity' does this pie chart show?

A) Movies watched by teenagers
B) Percentages of teenagers
C) Movies about teenagers
D) Statistics on teenagers (1)

Question FIVE
Study the poem and answer questions:

Proudly South African by Mainy

1. It's 18:30 and I'm staring out at the sunset
   Listening to a young mother teaching her child the alphabet The peace within that's over flowing
   Seeing clearly the beauty in everything

2. I'm a South-African born and bred
   We're a nation that stands together indeed From north to south and east to west
   We'll give nothing but our best

3. Together we'll braai Together we'll cry Together we'll strive
   To keep this nation alive

4. I'm proudly South-African I'll soar like a falcon
   To shout it from up high My heritage I'll never deny

5. The beauty within our land To see all God has planned From sunrise to sunset This beauty we all met

6. Where great people come from and go to Well maybe that's just my point of view I'm a South-African born and bred
   And what I've learned is that we're a nation that stands together indeed

7. Together we'll braai Together we'll cry Together we'll strive
   To keep this nation alive

8. I'm proudly South-African I'll soar like a falcon
   To shout it from up high My heritage I'll never deny

Which word will best describe the poet’s tone?

A) disappointment
B) sadness
C) pride
D) hope (1)

Question SIX
Transactional Writing
Instructions
•Write a response to any one of the four (4) topics below.
•Write down the number and title of the text you have chosen, for example,

1. Friendly Letter.
•Remember that you have to show evidence of planning.
•You will be assessed according to content, language construction, length, planning and format

Transactional Writing	Writing and presenting	Text features and process writing	A	7	M	1,3

(20)

1. Friendly Letter
   Your best friend changed schools at the end of Grade 7. Write a letter to him/her asking about the new school, teachers and activities. Remind your friend how you miss not having him/her around. The content of your response should be between 120 to 140 words.

GUIDELINES
• The letter should be addressed to a friend.
• The tone and register of the letter should be informal.
• The following aspects of format should be included:
  - Address of sender
  -Date
  - Greeting/Salutation (informal)
  - Suitable ending (informal)
  - Name of sender (first name)
  - The contents should include details of the enquiry about the new School, teachers and activities.

Transactional Writing	Writing and presenting	Text features and process writing	A	8	M	4

(20)

2. Dialogue
   You were asked by an older boy/girl to accompany him/her to a party. Write out the conversation that took place when you asked your parent/ guardian for permission to attend the party. The content of your response should be between 140 – 160 words.

GUIDELINES
• The dialogue must be between parent/ guardian and learner.
• The register and tone of the dialogue will be informal.
• The correct dialogue format must be used:
  - Name of speakers
  - Using a new line for each speaker
  - Colon
  - Direct words and no quotation marks
  - Actions of speakers between brackets
  - Exchanges short and to the point

Transactional Writing	Writing and presenting	Text features and process writing	A	8,9	M	1

(20)

3. Speech

Your principal has asked you to speak to the current Grade 9 learners at your school about the importance of knowing one's likes and dislikes when choosing subjects. Write the speech. The content of your response should be between 140 – 160 words.

GUIDELINES

- The speech must be divided into paragraphs.
- There should be a clear introduction and conclusion.
- The tone, language and register of the speech should be appropriate to the audience (the learners of the school) and the topic.
- The speech must motivate learners to make informed decisions.
- Avoid clichés and repetition.

Transactional Writing	Writing and presenting	Text features and process writing	A	10	M	4

(20)

4. Magazine Article

The editor of Seventeen magazine, a magazine that focuses on teenagers, is concerned about the recent drop in sales of the magazine. You have been asked by the editor to write an article on any topic that would appeal to teenagers. The content of your response should be between 140 – 160 words.

GUIDELINES

- There must be an eye-catching and interesting heading.
- The article must be in paragraph form. Sub-headings may be included to structure the article.
- The tone and register of the article should be appropriate to the content of a teen magazine.
- The style should be personal, speaking directly to the reader. The style can be descriptive and figurative, appealing to the imagination of the reader.
- Names, places, times, positions and other necessary details should be included in the article.
- The article should stimulate the interest of the reader.

B	She had no energy at the start.		Makes superficial connections but cannot relate facts and details in the text.		2	9
C	She had a slow start to the race.		Conclusions or inferences arrived at are weaker than ones required for correct response.		3	9
D	She won the only gold medal.		Has some general knowledge of the topic but response is not text based.		1	9
1.6						
A	Personi-fication	1	Shows some knowledge of comparisons but cannot differentiate between simile and personification.		2	9
B	Onoma-topoeia		Has some knowledge about figures of speech but cannot distinguish between a sound device and a comparison.		1	9
C	Metaphor		Shows some knowledge of comparisons but cannot differentiate between metaphor and simile.		3	9
D	Simile	1	Correct response.	D	4	9

No.	Expected answer	MARK	Diagnostic Analysis	Level of Understanding	Level of Performance	GRADE
1.7						
A	When she realised she had enough energy left.	1	Correct response.	M	4	9
B	When she started the race.		Makes weak conclusions or inferences resulting from poor interpretation of the plot in the text.		3	9
C	The night before the race.		Makes superficial connections but cannot follow the sequence of events in the text.		2	9
D	After the race.		Has some general knowledge of the topic but response is not text based.		1	9
1.8						
A	She was the only athlete who did not win a medal for South Africa.		Has some general knowledge of the topic but response is not text based.		1	9
B	She was the only athlete who won a medal for South Africa.		Makes weak conclusions or inferences due to poor interpretation and misunderstanding of the plot.		3	9
C	She won South Africa's only gold medal	1	Correct response.	M	4	9
D	She set a new world record.		Makes superficial connections but cannot show understanding of facts and details.		2	9

No.	Expected answer	MARK	Diagnostic Analysis	Level of Understanding	Level of Performance	GRADE
1.9						
A	She was given a golden watch.		Has some general knowledge of the topic but response is not text based.		2	10
B	She was covered in gold.		Makes weak conclusion due to inability to apply inferential reasoning.		3	10
C	She won a gold medal.	1	Correct response.	M	4	10
D	She had a golden tan.		Makes superficial connections but cannot relate facts and details in the text.		1	10
1.10						
A	They are her team mates.		Response is unrelated to information required (inferring meaning)		1	8
B	They are her cousins.		Conclusions or inferences arrived at are weak due to inability to grasp implication.		3	8
C	They are her siblings.	1	Correct response.	E	4	8
D	They are her friends.		Unable to relate implied meaning of facts in text.		2	8
1.11						
A	To watch Gezelle's race on television.	1	Correct response.	E	4	7
B	To watch Gezelle on television.		Makes weak conclusions due to poor understanding of relations between parts of the text.		3	7
C	To take Janine to the airport.		Makes superficial connections but shows poor understanding of the logical development of the text.		2	7
D	He fell ill at work.		Has some general knowledge of the topic but response is not text based.		1	7

No.	Expected answer	MARK	Diagnostic Analysis	Level of Understanding	Level of Performance	GRADE
1.12						
A	People wanted to ask permis-sion to go to the airport.		Has some general knowledge of the topic but response is not text based.		1	8
B	People wanted to know how the family was doing.		Makes superficial connections but cannot see implications made in the text.		2	8
C	People wanted to find out more about Gézelle.		Conclusions or inferences arrived at are weak due to inability to draw conclusions and apply insight.		3	8
D	People wanted to congratulate the family.	1	Correct response.	M	4	8
1.13						
A	They were screaming, crying and celebrating.		Conclusions or inferences arrived at are weak due to inability to skim and scan.		3	9
B	They planned a party, bought cake and cried.		Has some general knowledge of the topic but response is not text based.		1	9
C	They were screaming, laughing and crying.	1	Correct response.	E	4	9
D	They shouted, cried and danced.		Makes superficial connections but cannot separate essentials from non- essentials.		2	9

No.	Expected answer	MARK	Diagnostic Analysis	Level of Understanding	Level of Performance	GRADE

C	She is hard-working and dedicated.	1	Correct response.	D	4	9
D	She always listens to her parents.		Has some general knowledge of the topic but response is not text based.		1	9
1.20						
A	I would have studied just as hard to achieve success./ Accept any similar decision/ response.	1		D		9

Question two: Information Text – Language Structures and Use
Table Mountain

No.	Expected answer	MARK	Diagnostic Analysis	Level of Understanding	Level of Performance	GRADE
2.1						
A	common noun		Close association but shows lack of understanding of difference between common and proper nouns (generic vs specific) and capitalisation used for proper nouns.		3	7
B	proper noun	1	Correct response.	M	4	7
C	preposition		Unable to differentiate between preposition and noun.		1	7
D	pronoun		Unable to differentiate between a pronoun and proper noun (parts of speech)		2	7

2.2

Train – reference to train as means of transport Train - reference made to teaching, coaching a skill Train – reference made to exercise for a specific purpose (to keep fit) Train – a line or procession of persons, animals or vehicles.	2	0 / 1 / 2 **SCORING GUIDE** Both sentences fail to show the differences. / Only one sentence indicating clear meaning. / Two correct sentences indicating clear meaning.

2.3

A	colourful		Unable to differentiate between familiar words that are similar but not synonymous.		3	9
B	amazing	1	Correct response.	D	4	9
C	awful		Unable to understand that the word is used to emphasise something negative.		1	9
D	dull		Unable to differentiate between familiar words that are similar but not synonymous.		2	9

No.	Expected answer	MARK	Diagnostic Analysis	Level of Understanding	Level of Performance	GRADE
2.4						
A	personification	1	Correct response.	D	4	9
B	onomatopoeia		Lacks basic knowledge of figurative language use to create sound effect.		2	9
C	rhyme		Minimal understanding of sound devices.		1	9
D	simile		Lacks understanding of figures of speech (comparison).		3	9
2.5						
A	-ming		Demonstrates minimal knowledge of the use of suffixes and root word.		3	7
B	Com-		Lacks basic knowledge of the use of suffix and prefix.		1	7
C	wel-		Unable to differentiate between a prefix and a suffix.		1	7
D	-ing	1	Correct response.	E	4	7
2.6						
A	The sandy flats that are at the top of the Table Mountain and gave rise to Table Mountain's name.		Unable to apply the use of substitution in the joining of sentences.		2	9
B	The sandy flats that are at the top of Table Mountain and the sandy flats gave rise to its name.		Reflects close association, but is unable to apply the rule of substitution in the combining of two sentences.		3	9
C	The sandy flats are at the top of Table Mountain and Table Mountain gave rise to its name.		Total misunderstanding of how to use "and" as a conjunction.		1	9
D	The sandy flats are at the top of Table Mountain and gave raise to its name.	1	Correct response.	M	4	9

No.	Expected answer	MARK	Diagnostic Analysis	Level of Understanding	Level of Performance	GRADE
2.7						
A	underneath		Unable to identify difference between synonyms and antonyms.		1	8
B	above	1	Correct response.	E	4	8
C	base		Conceptual understanding of antonyms incorrect.		2	8
D	over		Shows an idea of the concept but unable to make connections.		3	8
2.8						
Do not make use of rubbish bins. Don't make use of rubbish bins. NB: learner scores zero if apostrophe is incorrectly placed.		1		E		9
2.9						
A	will be sunning themselves.		Lacks understanding of the tenses.		2	9
B	were sunning themselves.	1	Correct response.	M	4	9
C	was sunning themselves.		Lacks basic understanding of the rules of concord.		3	9
D	sunned themselves.		Confuses simple past tense with past continuous tense.		1	9
2.10						
A	an adjective		Confuses the function of an adverb and an adjective.		3	9
B	an adverb	1	Correct response.	M	4	9
C	an article		Unable to distinguish between the use and function of an article and an adverb.		1	9
D	a verb		Unable to distinguish between a verb and an adverb.		2	9
2.11						
	butterfly	1	Correct response.	E		8

No.	Expected answer	MARK	Diagnostic Analysis	Level of Understanding	Level of Performance	GRADE
2.12						
A	Dassie were running along the rocks.		Shows limited understanding and knowledge of subject verb agreement.		3	9
B	Dassies are running along the rocks.	1	Correct response.	E	4	9
C	Birds lives the wonderful life.		Shows limited understanding and knowledge of subject verb agreement and article.		2	9
D	Porcupine dig to freesh food.		Lacks basic understanding and knowledge of subject, verb agreement, preposition and spelling.		1	9
2.13						
A	an adjectival clause		Lacks basic knowledge of identifying types of clauses.		1	9
B	a subordinate clause		Demonstrates an understanding of clauses, but unable to identify the correct type.		3	9
C	a main clause	1	Correct response.	D	4	9
D	a noun clause	1	Unable to distinguish between main and noun clauses.		2	9
2.14						
A	porcupine		Unable to differentiate between a noun and a verb.		3	7
B	food		Unable to differentiate between a noun and a verb.		2	7
C	the		Confuses nouns and articles.		1	7
D	ate	1	Correct response.	E	4	7
2.15						
A	a	1	Correct response.	E	4	7
B	an		Lack of knowledge of the use of indefinite article ‘an’.			7

No.	Expected answer	MARK	Diagnostic Analysis	Level of Understanding	Level of Performance	GRADE
2.16						
A	better		Demonstrates some understanding of the rules of degree of comparison, but unable to apply it successfully.		3	8
B	poor		Lacks basic knowledge of the rules of degree of comparison.		1	8
C	good		Shows some knowledge of the rule but unable to apply.		2	8
D	best	1	Correct response.	E	4	8
2.17						
A	He says that all creatures are living in the fynbos.		Knows the rules of direct and indirect speech but unable to apply them fully.		3	9
B	He says that all creatures live in the fynbos.	1	Correct response.	M	4	9
C	He says all creatures lived in the fynbos.		Unable to apply some of the rules of direct and indirect speech.		2	9
D	He says all creatures were living in the fynbos.		Unable to apply all the rules of direct and indirect speech.		1	9
2.18						
A	ride		Unable to differentiate between a noun and a verb.		3	9
B	up	1	Correct response.	E	4	9
C	the		Unable to distinguish between an article and a preposition		2	9

2.19						
A	an exclamation.		Unable to differentiate between an exclamation and a command.		2	10
B	a statement.		Unable to recognise sentence types.		3	10
C	a command.	1	Correct response.	M	4	10
D	a question.		Unable to recognise sentence types		1	10
2.20						
	Tourists can enjoy the restaurant's delicious meal.	1		M		8

Question three: Summary marking guidelines
PROUDLY SOUTH AFRICAN!

Expected answer	Mark	Diagnostic Analysis	Cognitive Level	Level of Performance	GRADE
We like to braai and make boerewors. We have lots of wildlife and have come up with our own language. We have a world heritage site, the beautiful Table Mountain. We have well known people like Trevor Noah and Nelson Mandela. We are proud of our South African products. (Accept any 5 facts.) Note: • Count up to 60 words. • Draw a double line (//) after the 60th word. • Read until the end of the sentence of the 60th word and disregard the rest.	5		A	D	9

Question four: Information Text
Pie Chart

No.	Expected answer	MARK	Diagnostic Analysis	Level of Understanding	Level of Performance	GRADE
4.1						
A	Comedy and Foreign		Fails to interpret data.		1	8
B	Drama and Comedy		Conclusions or inferences arrived at are not precise.		3	8
C	Comedy and Action	1	Correct response.	E	4	8
D	Drama and Action		Makes superficial connections but does not understand basic numerical concepts		2	8
4.2						
A	funny and involves romance.		Conclusions or inferences arrived at are not precise due to inadequate ability to derive meaning of words from their context.		3	7
B	meant to make people laugh.	1	Correct response.	E	4	7
C	telling a story through dance.		Makes superficial connections but cannot work out meaning of words from their context.		2	7
D	about a serious subject.		Has some general knowledge of the topic but response is not text based.		1	7
4.3						
A	The age restriction of a certain movie watched by teenagers.		Makes superficial connections but struggles to see how parts of sentences define other parts.		3	9
B	The grading of different movie types according to choice.	1	Correct response.	M	4	9
C	A review of a movie watched by teenagers.		Conclusions or inferences arrived at are weak due to inability to workout meaning of words from context.		2	9
D	A type of movie watched by teenagers.		Has some general knowledge of the topic but response is not text based.		1	9

No.	Expected answer	MARK	Diagnostic Analysis	Level of Understanding	Level of Performance	GRADE
4.4						
A	Science Fiction		Conclusions or inferences arrived at are not precise due to inability to interpret data.		3	9
B	Foreign	1	Correct response.	M	4	9
C	Drama		Makes errors when decoding facts. Grabs pieces of text unrelated to the question asked.		1	9
D	Horror		Makes errors that reflect inability to interpret data.		2	9
4.5						
A	are not interested in romantic movies.	1	Correct response.	D	4	9
B	like having romantic relationships.		Makes errors that reflect initial understanding of numerical concepts but struggles in data manipulation skills.		2	9
C	like watching romantic movies.		Makes errors when decoding facts. Grabs pieces of text unrelated to the question asked.		1	9
D	are not easily impressed.		Conclusions or inferences arrived at are not precise due to inability to draw conclusions and make generalisations from given data.		3	9

4.6 SCORING GUIDE

	0	1	2			
	If only opinion or reason is given.	Opinion is given but the reason (substantiation) is weak.	Correct opinion is given and the reason strongly supports the option chosen.	D		10
	No understanding of either text or the question.	Partial understanding.	Comprehension of a complex idea.			

YES. It shows exactly what teenagers watch/ it is easy to read/ or any relevant response.

OR

NO. Movies like animated movies were not included.

1. marks if only the reason (substantiation) or opinion is given.
2. mark if YES/NO is correct but the reason (substantiation) is wrong. 2 marks if YES/NO is evident and the reason supports the YES/NO

No.	Expected answer	MARK	Diagnostic Analysis	Level of Understanding	Level of Performance	GRADE
4.7						
A	It looks more like a pie than a graph.		Makes errors that show inadequate knowledge and understanding of information		3	7
B	It lists the different types of movies.		Conclusions or inferences are weak due to poor understanding of graphs		2	7
C	It is round and split into sections	1	Correct response.	M	4	7
D	It is round and can be eaten.		Has some general knowledge of the topic but response is not related to the text.		1	7

4.8 SCORING GUIDE

	0	1	2			
	If only opinion or reason is given.	Opinion is given but the reason (substantiation) is weak.	Correct opinion is given and the reason strongly supports the option chosen.	D		9
	No understanding of either text or the question.	Partial understanding.	Comprehension of a complex idea.			

YES. It shows exactly what teenagers watch/ it is easy to read/ or any relevant response.

OR

NO. Science Fiction is not based on reality. / Science Fiction movies deal with imagined situations

0 marks if only the reason (substantiation) or opinion is given. 1 mark if NO is correct but the reason (substantiation) is wrong. 2 marks if NO is evident and the reason supports the NO.

No.	Expected answer	MARK	Diagnostic Analysis	Level of Understanding	Level of Performance	GRADE
4.9						
A	Movies watched by teenagers.	1	Correct response.	M	4	9
B	Percentages of teenagers		Poor association resulting from poor understanding of information presentedvisually.		2	9
C	Movies about teenagers		Conclusions or inferences arrived at are not precise because of inability to read information represented on a graph.		3	9
D	Statistics of teenagers		Has some general knowledge of the topic but response is not related to the text.		1	9
4.5						
A	are not interested in romantic movies.	1	Correct response.	D	4	9
B	like having romantic relationships.		Makes errors that reflect initial understanding of numerical concepts but struggles in data manipulation skills.		2	9
C	like watching romantic movies.		Makes errors when decoding facts. Grabs pieces of text unrelated to the question asked.		1	9
D	are not easily impressed.		Conclusions or inferences arrived at are not precise due to inability to draw conclusions and make generalisations from given data.		3	9

Question five: Literary Text
Poetry

No.	Expected answer	MARK	Diagnostic Analysis	Level of Understanding	Level of Performance	GRADE
5.1						
A	Watching		Related in meaning but not precise		3	9
B	Ignoring		Close association		2	9
C	Flowing		not related to the context of the text		1	9
D	Staring	1	Correct response.	E	4	9
5.2						
A	Sight and hearing	1	Correct response.	M	4	9
B	Smell and touch		Not able to decode meaning of unfamiliar words using word attack skills		2	9
C	Touch and taste		Unable to differentiate between familiar words that are similar but not synonymous.		1	9
D	Taste and sight		Conclusions or inferences arrived at are not precise and cannot make generalisations based on context.		3	9
5.3						
A	A nation that fights together		Has some general knowledge of the topic but response is not text based.		1	9
B	An extremely divided nation		Makes superficial connection but cannot understand basic poetry concepts.		2	9

Newspaper Article	Reading and Viewing	Implied meaning	A	M

Marks per section		Total mark: 20
1. Creative Writing	20	

INSTRUCTIONS AND INFORMATION

This memorandum must be used together with the attached English FAL assessment rubric for essay writing.

DESCRIPTIVE ESSAY

Instructions to Markers:

- Candidates are required to write on ONE topic only
- The ideas listed below the topics are only some ways in which the topic could be interpreted
- Full credit must be given to the candidates'' own interpretation
- Marking must be objective. Give credit for relevant ideas
- Use the 20-mark assessment rubric to mark the essays that can be adjusted to suit teacher's needs. The texts produced by candidates must be assessed according to the following criteria as set out in the assessment rubric:
  - Content (10 marks)
  - Language construction (5 marks)
  - Planning, structure and length (5 marks)

NOTE: No additional penalties may be imposed as the rubric itself imposes penalties.

1. "When I look into the eyes of an animal, I do not see an animal. I see a living being. I see a friend. I see a soul."

   A.D Williams

   Write an essay in which you describe your pet. (20)

   Descriptive

   - Writer should create a picture with words, trying to use as many senses as possible to make the description clear.

    - Language construction (5 marks)
    - Planning, structure and length (5 marks)

NOTE: No additional penalties may be imposed as the rubric itself imposes penalties.

TERM 1 TASK 2.2

SENIOR PHASE

ENGLISH FIRST ADDITIONAL LANGUAGE

GRADE 9

Note to the teacher:

1. These "tests" are designed as a diagnostic assessment tool.
2. You may administer the tests according to the sections/questions.
3. The selection of the sections/questions will depend on the **purpose of the assessment**, e.g. You may want to check whether the Grade 9 learners in your class are competent in Writing and Presenting component. This may form an assessment which can be administered at the end of the year. You can then plan your Term 2 lessons for your Grade 9 learners based on your diagnostic analysis of the assessment. In a similar manner you can select questions according to the different CAPS components and the purpose of your assessment.

This task consists of 7 pages.

This memorandum consists of 5 pages.

QUESTIONS	Marks per section		Total mark = 10
	1. Transactional Writing	10	

INSTRUCTIONS AND INFORMATION
